ADVANCE

# Advance PLUS 90 Protection®

## The Industry's Most Comprehensive Ballast/Lamp System Warranty

**For the first time, Advance**

**brings you a Ballast/Lamp System**

**Warranty that means freedom —**

- Advance's exclusive PLUS 90 Protection® brings you *complete freedom from concern about warranty coverage on your lighting systems*. That's because PLUS 90 Protection matches the published "system" warranty of *any* major lamp manufacturer, fluorescent or HID...*and extends it for an additional 90 days*.
- And, PLUS 90 Protection gives you the *freedom* to use any major lamp brand you select — now or in the future.

That means you can select Advance — independent survey - proven to be the preferred choice of contractors, specifiers and end-users everywhere. And use whichever major lamp brand you prefer. With **no sacrifice** in lamp warranty coverage.

## PLUS 90 Protection® Benefits:

- Warrants both the lamps and the ballasts.
- Matches the published "system" warranties offered by any major lamp manufacturer...including relamping provisions.
- Extends protection for 90 days past other "system" warranties.
- Eliminates finger-pointing. You're covered no matter what part of the lighting system might fail...no matter which brand of lamp you choose to employ, now or in the future.
- Provides quick, direct access to Advance's Warranty Service Team. Just call 1-800-372-3331 (Option 2) for immediate response and assistance.

# Advance®—

## The Power Behind the Brand.
## The Protection Behind the System

When you specify "Advance" for all of your ballast requirements, you're harnessing the power of the world's leader in ballast engineering, manufacturing and service. As a division of Philips Electronics North America Corporation, Advance has the global capabilities to bring you innovative solutions for your lighting and energy management challenges. And, with Advance's network of partners and lighting sales professionals, you can count on a level of service and support that matches the unsurpassed quality of Advance's products.

# The Advance Advantage—

## Improving Your Bottom Line
## Improving the Quality of Your Lighting System

Specifying or purchasing Advance ballasts brings you a variety of benefits, including many ranging far beyond the actual product. Benefits like:

- The broadest ballast product line available, with selections specially matched to any specific need or application, including the newest in energy-efficient lighting technology.
- Extensive distribution network means ready availability, with fast access to the right ballasts for your requirements.
- Advance's wide brand preference, company-wide ISO certifications and strong partnerships with lighting fixture and control manufacturers are your assurance of quality and reliability.
- Advance's deep support network, including the Advance Specification Sales Group, Energy Service Company (ESCO) and distributor partners, qualified factory customer support specialists and dedicated field salespeople...all working together to ensure your satisfaction.

## Demand Advance

If you want the best in ballast performance and innovation, combined with unsurpassed service and the security provided by PLUS 90 Protection, Advance is your clear choice. Always demand Advance for all your ballast needs.

plus 90 PROTECTION™

# Combination Ballast and Lamp System Limited Warranty

**Limited Warranty**

Advance is pleased to offer this value-added warranty ("Warranty"), which provides an additional 90 days protection to both the lamps and ballasts when installed as a system combining Advance Ballasts with lamps manufactured by GE Lighting, Osram-Sylvania, Philips Lighting or Venture Lamp, subject to the following:

**Terms and Conditions**

1. Advance warrants the lamps to be free from defects in material and workmanship, and warrants its ballasts as provided in Advance's **currently published** ballast warranty, hereby made part of this Warranty.
2. Lamps must meet applicable ANSI standards and be otherwise covered under the lamp manufacturer's **published** lamp-ballast system warranty.
3. Lamps must be operated on ballasts indicated, within electrical values noted on ballast label, and with all lamp and lighting equipment instructions and be operated within the normal specified operating range of environmental conditions for the systems. Ballasts and lamps must be installed and operated in accordance with latest National Electric Code, UL, and ANSI specifications. Ballasts or lamps operated in any system which has been subjected to abnormal stresses as, but not limited to, excess temperatures or under or over voltage conditions, are excluded from coverage under this Warranty.
4. The installation must be registered with Advance within thirty (30) days from date of completion. Advance's PLUS 90 Protection® Warranty Registration Form must be used, completed per instructions and installation acknowledged by Advance.
5. Refer to Advance's currently published ballast warranty for the replacement of ballasts. Advance will replace in-warranty failures by furnishing lamps in kind.

**Limitations**

1. Subject to all terms and conditions herein, Advance limits this Warranty to the warranty period as offered by the lamp manufacturer's published standard Lamp-Ballast System Warranty, plus an additional 90 days protection.
2. Advance expressly excludes and assumes no warranty responsibility, at any time, for catastrophic lamp failures, which are generally covered by the lamp manufacturers.
3. Replacement of Advance ballasts with ballasts of other manufacturers will void this Warranty to the extent of said replacement.
4. Advance will arrange for a service provider and coordinate ballast replacement (labor) at no cost to the user.
5. There will be no labor allowance for lamp replacement, unless specifically offered in the lamp manufacturer's published warranty.
6. Advance reserves the right to examine all failed ballasts and/or lamps and reserves the right to be the sole judge as to whether any ballasts and/or lamps are defective and covered under this warranty.
7. Customer will, upon the request of Advance, assign lamp warranties to Advance and/or cooperate with Advance in any reasonable manner in pursuing lamp warranty claims.
8. This Warranty shall be the sole remedy of the Customer and the sole liability of Advance to Customer. NO IMPLIED WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS MADE OR IS TO BE IMPLIED. Advance will not under any circumstances whether as a result of breach of contract, breach of warranty, tort, strict liability or otherwise be liable for consequential, incidental, special or exemplary damages including, but not limited to, loss of profits or revenues, loss of use of ballasts or any other goods or associated equipment or damages to any associated equipment, cost of capital, cost of substitute products, facilities or services, down time costs, or claims of claimant's customers.
9. Refer to Advance's Lamp Ballasts Limited Warranty for other terms and conditions and limitations not otherwise superseded in the foregoing ADVANCE PLUS 90 PROTECTION WARRANTY.
